Product Overview

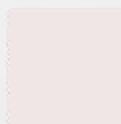

Hybronac-M Eye Drops

- 

Bromfenac 0.09%
Potent NSAID with strong anti-inflammatory & analgesic action
- 

Moxifloxacin 0.5%
4th generation fluoroquinolone with broad-spectrum antibacterial coverage
- 

Dual-action therapy
Reduces inflammation + prevents/treats post-surgical infections
- 

Rapid recovery
Provides rapid recovery, comfort & safety in post-ocular surgeries
- 

Sterile solution
Sterile ophthalmic solution

Why This Combination?

Bromfenac

 Inhibits prostaglandin synthesis
→ reduces pain, inflammation & edema

Moxifloxacin

 Broad-spectrum antibacterial →
prevents secondary infections

Together

 Ensures **safe post-operative healing** with **pain relief + infection control**

 Reduces need for multiple medications → improved compliance

Indications

💡 Hybronac-M is recommended for:

Post-cataract surgery

Inflammation & infection prophylaxis

Post-LASIK/PRK

Recovery support

Ocular trauma

With risk of infection & inflammation

Bacterial conjunctivitis

With associated pain & redness

Inflammation management

Where infection risk is present

Clinical Advantages

★ Key Benefits of Hybronac-M:

Combined therapy

Combines **anti-inflammatory + antibacterial** in one bottle

Symptom relief

Reduces ocular pain, redness & swelling rapidly

Infection prevention

Prevents bacterial infections post-surgery

Better outcomes

Improves surgical outcomes & patient comfort

Better compliance

Enhances compliance by reducing polypharmacy

Comparison with Monotherapy

Parameter	Hybronac-M (Bromfenac+Moxifloxacin)	Bromfenac Alone	Moxifloxacin Alone
Pain Relief	✔ Strong	✔ Strong	✗ None
Anti-infective	✔ Broad-spectrum	✗ None	✔ Broad-spectrum
Compliance	✔ Single bottle	✗ Needs antibiotic cover	✗ Needs anti-inflammatory
Post-Surgical Care	✔ Comprehensive	⚠ Partial	⚠ Partial

The **Hybronac-M combination** provides comprehensive care that individual medications cannot achieve alone.

Dosage & Administration

1

Recommended dosage

✚ Instill **1 drop in the affected eye(s) 2–3 times daily** or as directed by the physician.

2

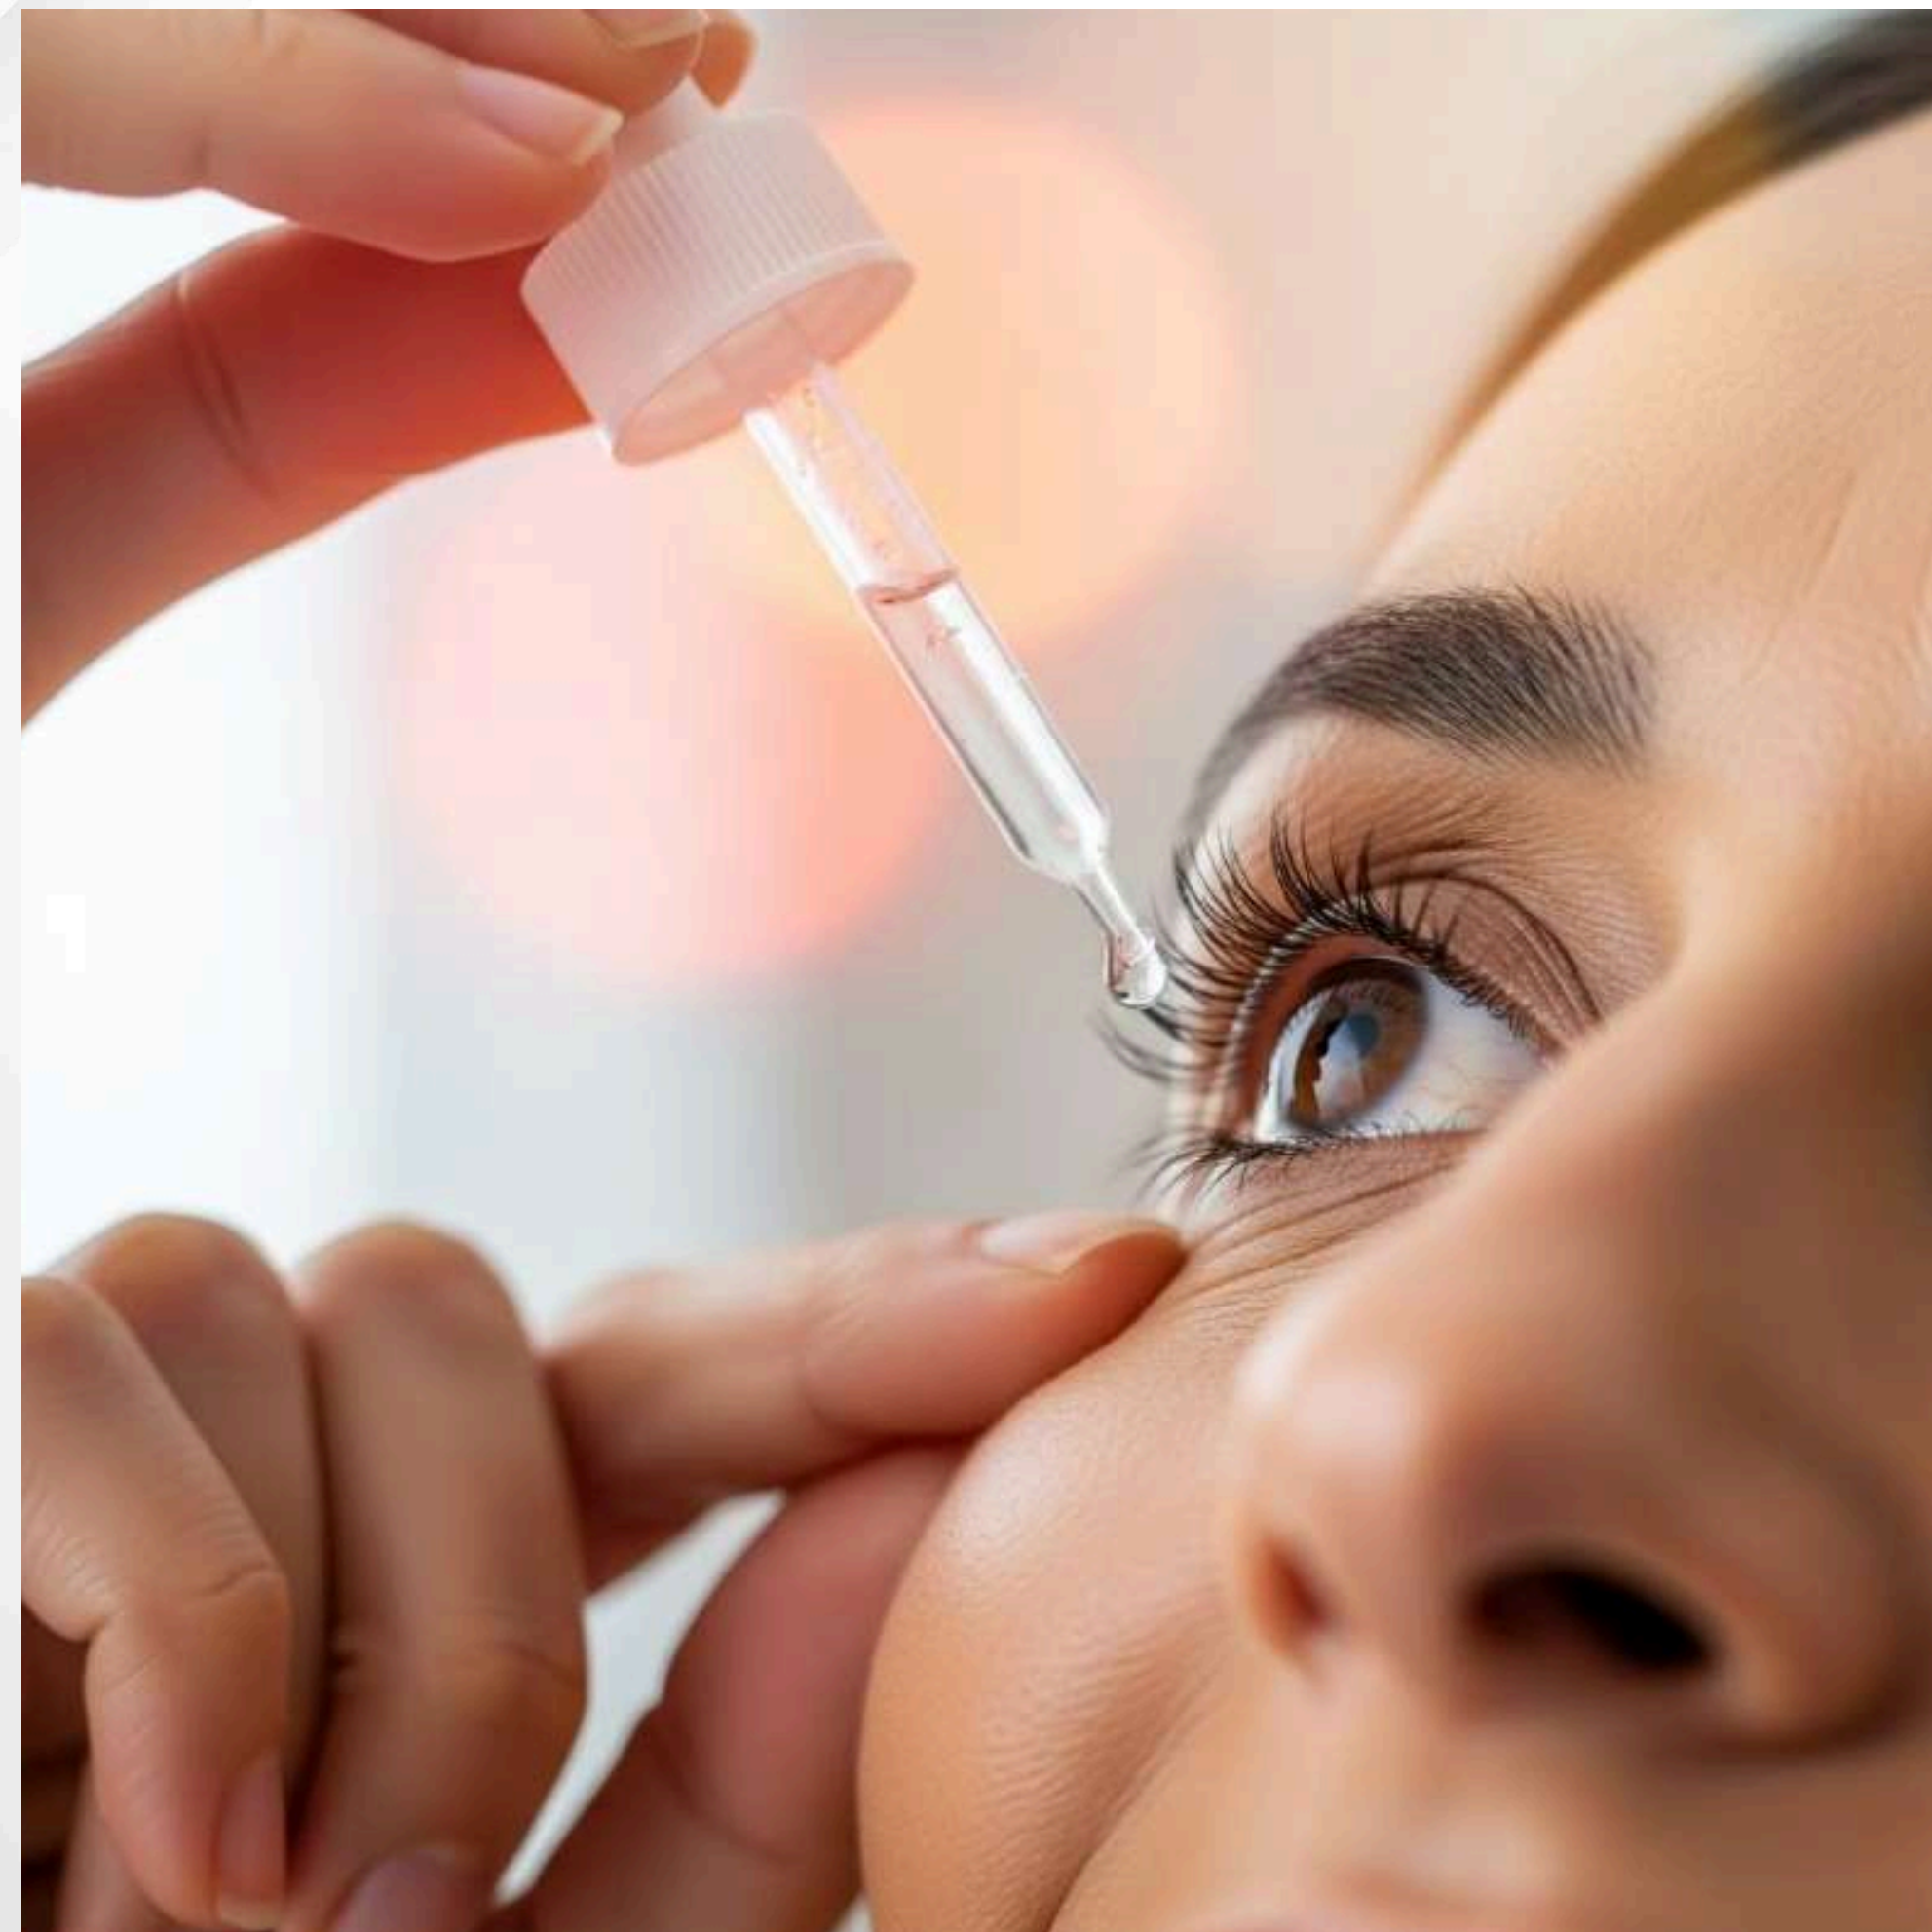

Duration

⚠ Continue for the prescribed duration after surgery for best outcomes.

3

Route

⚠ For ophthalmic use only.

Safety & Tolerability

🔍 Generally well-tolerated

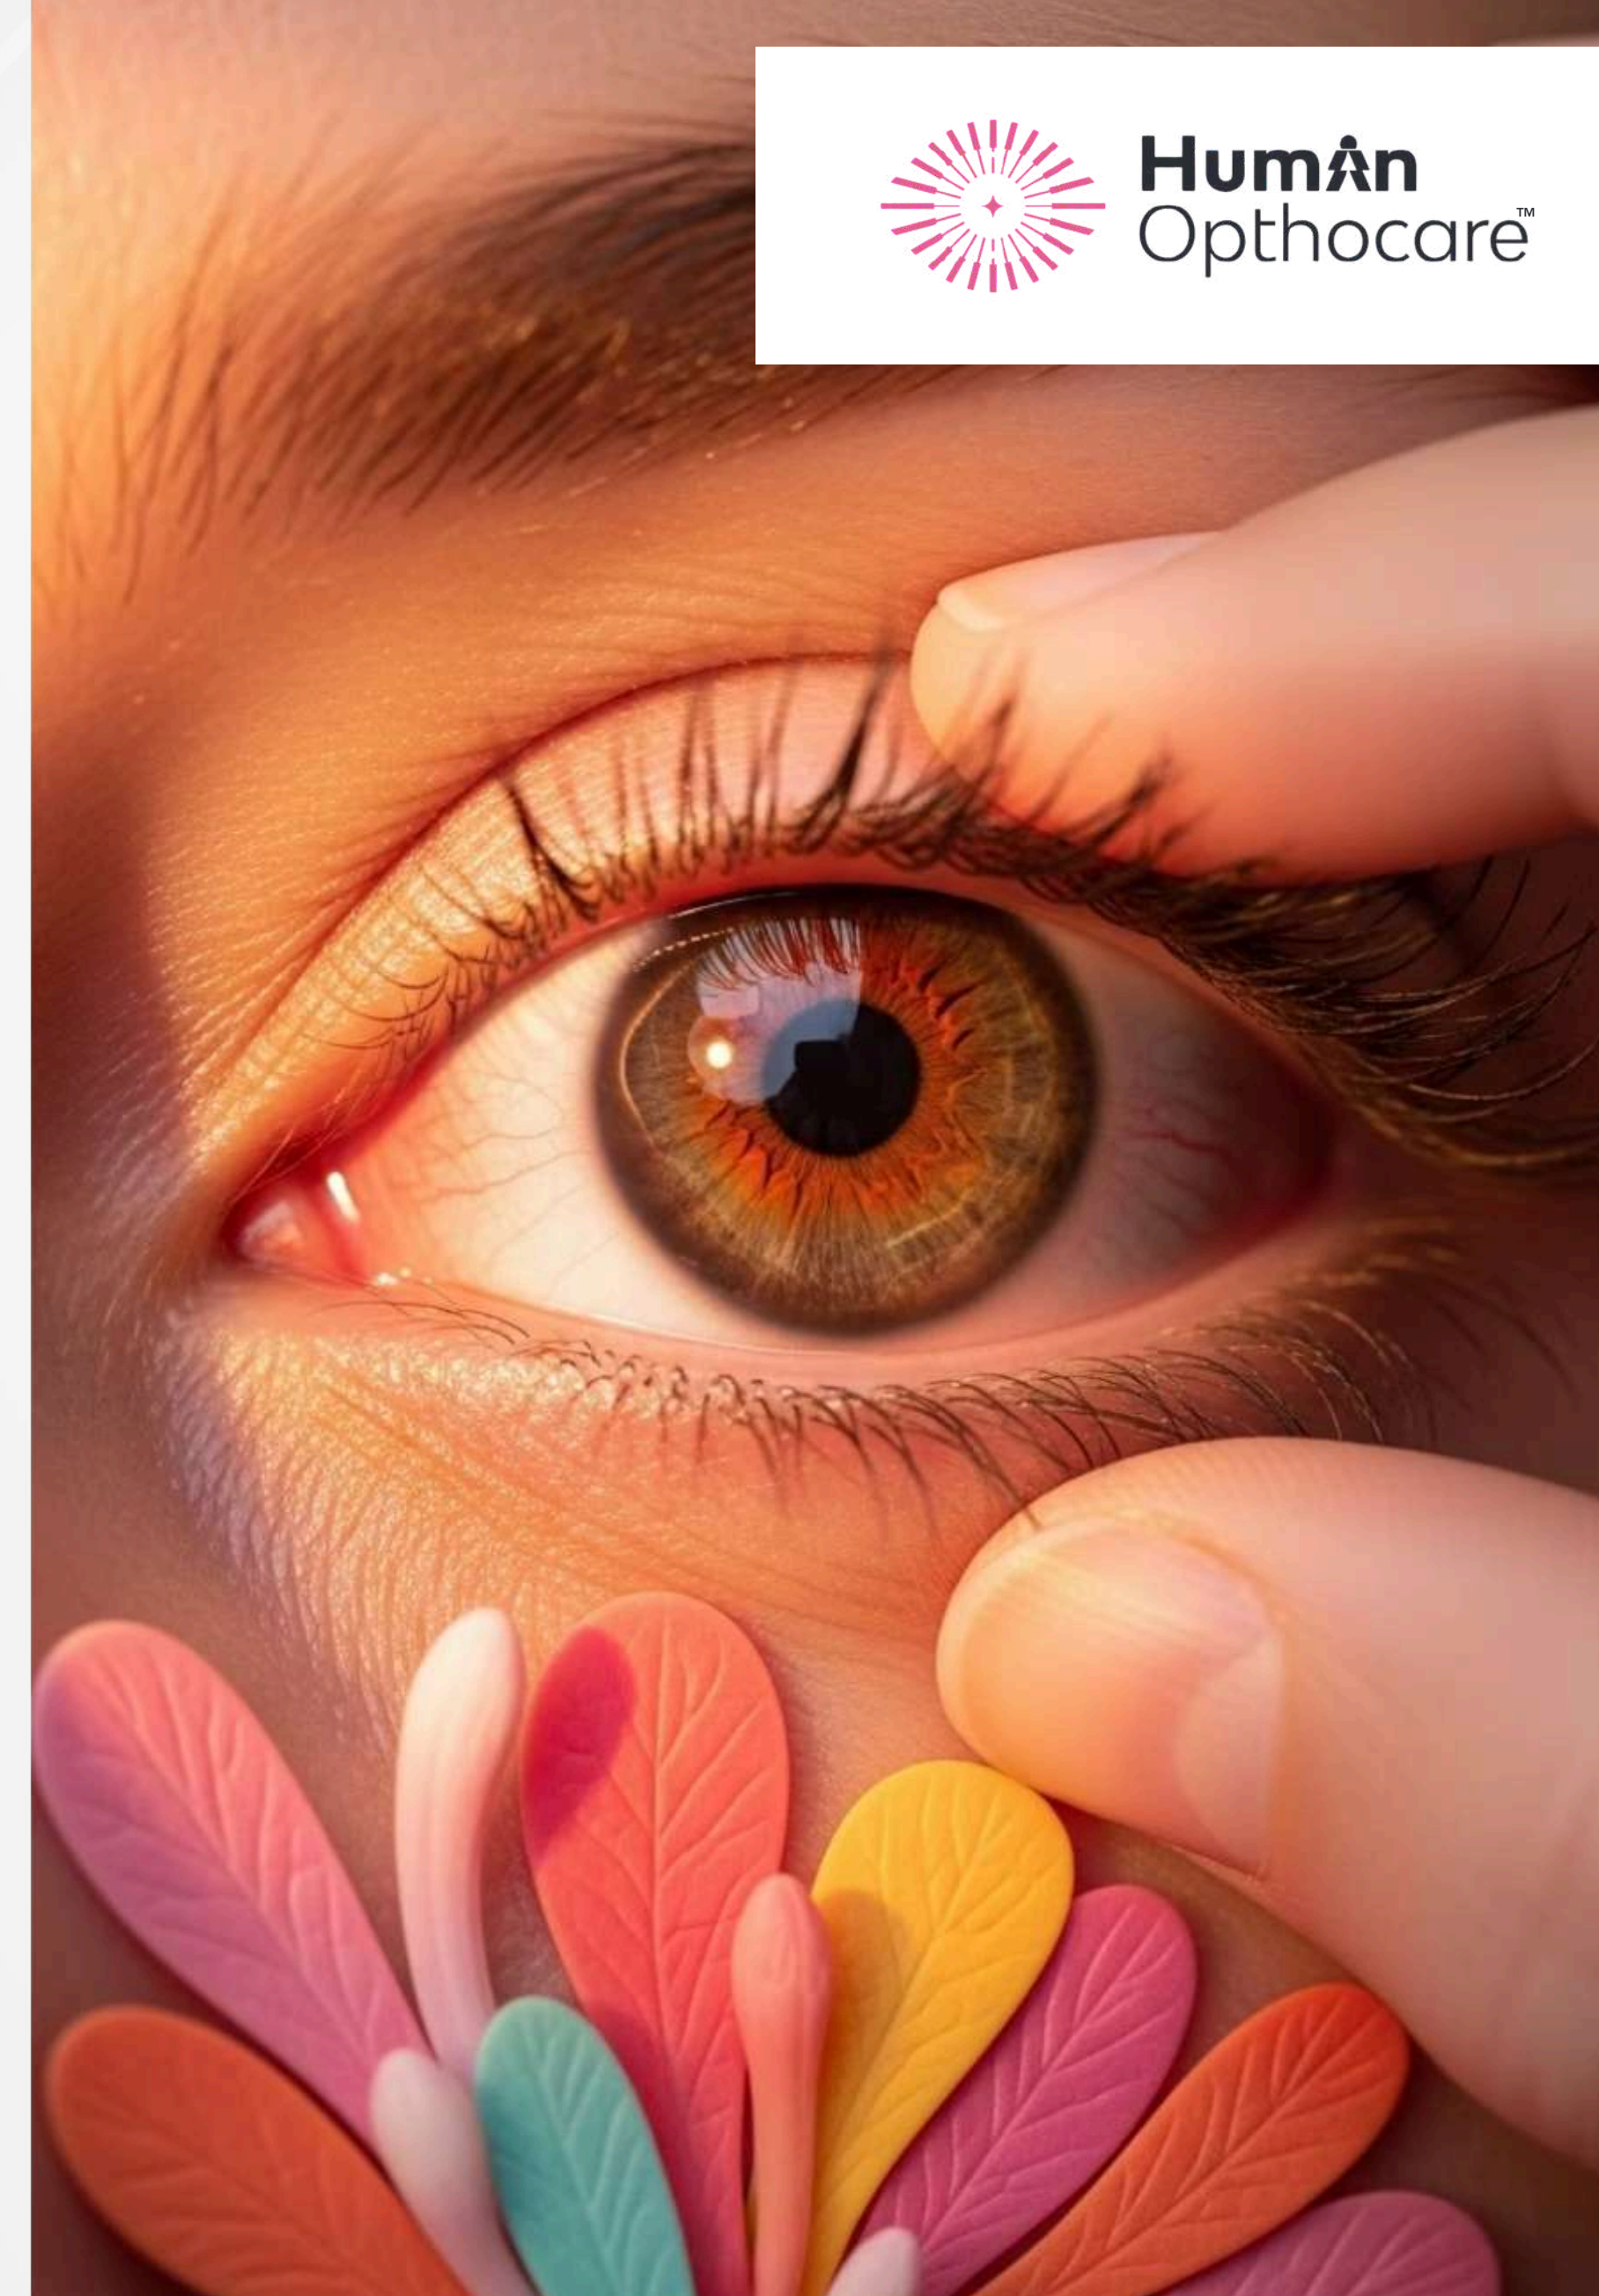

Possible mild side effects:

- Transient irritation, burning, or stinging
- Mild conjunctival hyperemia
- Rare hypersensitivity reactions

Contraindications:

- Hypersensitivity to NSAIDs, quinolones, or formulation components
- Use with caution in corneal epithelial disorders

Why Prescribe Hybronac-M?

 Doctor's Choice For:

1

Dual benefit
