Product Overview

Hydroxypropyl Methylcellulose (HPMC) 0.3%

Artificial tear substitute (ocular lubricant)

Mimics natural tear film → restores eye moisture

Provides soothing relief in dry eye conditions

Sterile, preservative-free formulation

Why HPMC?

Proven Ocular Lubricant

Forms a protective moisture shield on the ocular surface

Reduces friction during blinking → protects epithelial cells

Enhances tear film stability → prevents dryness, burning, irritation

Suitable for long-term daily use in chronic dry eye patients

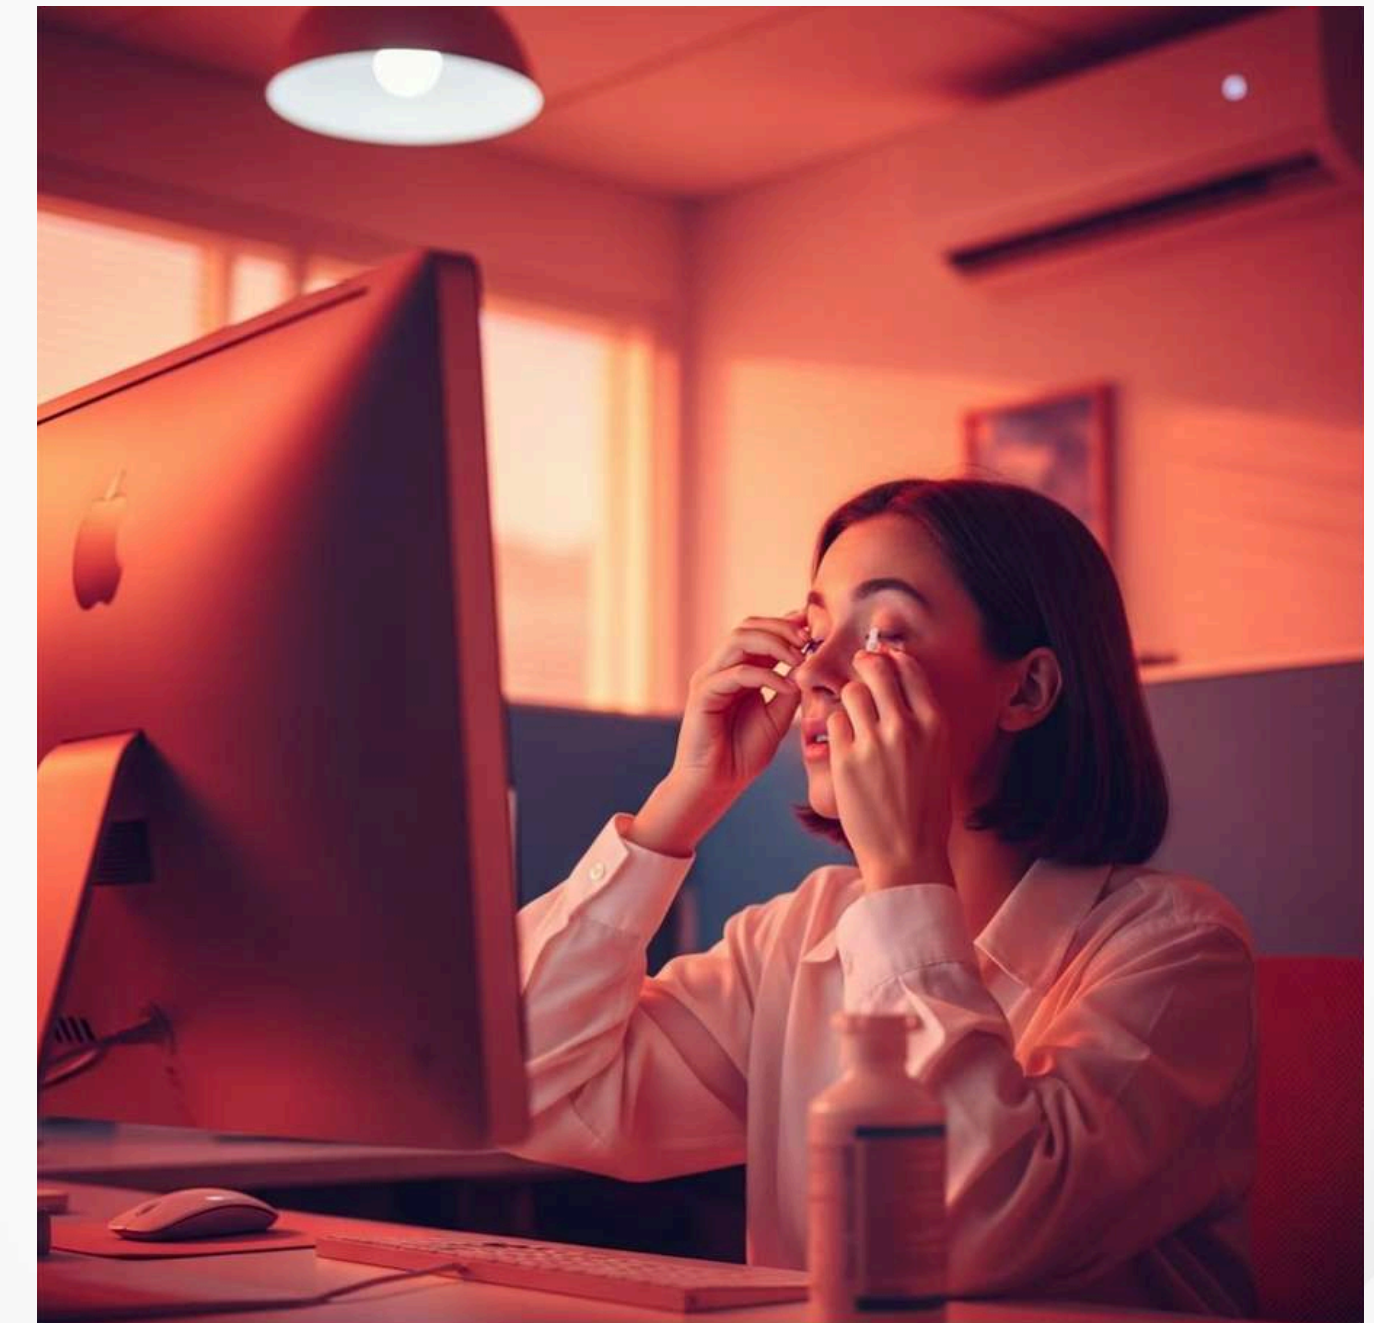

Indications

TEARBLESS-ACTIVE is recommended for:

Dry Eye Syndrome (DES)

Post-cataract or LASIK surgery dryness

Ocular surface disorders (burning, irritation, discomfort)

Patients exposed to AC rooms, digital screens, pollution

Supportive therapy for contact lens users (when not wearing lenses)

Clinical Advantages

Key Benefits of TEARBLESS-ACTIVE

Provides long-lasting ocular lubrication

Reduces dryness, burning, stinging & eye fatigue

Preservative-free → safe for sensitive eyes

Can be used frequently without side effects

Improves patient comfort & quality of life
