Product Overview

Active ingredients

Polyethylene Glycol 400 + Propylene Glycol

Advanced Formula

Advanced artificial tear with dual-lubricating system

Superior Hydration

Provides superior hydration & long-lasting moisture

Protection

Protects ocular surface against dryness, irritation & oxidative stress

Ideal Solution

Ideal for patients with moderate to severe dry eye

Tearless-Ultra Eye Drops

Why PEG 400 + Propylene Glycol?

 Synergistic Dual Action

PEG 400

 High viscosity lubricant, forms protective film on ocular surface

Restores Tear Film

Works together to restore tear film stability

Reduces Damage

Reduces ocular surface damage

Superior Relief

 Provides stronger, longer relief compared to conventional lubricants

Propylene Glycol

 Penetrates corneal epithelium, hydrates & protects against cellular damage

Indications

Tearbless-Ultra is recommended for:

Moderate to severe Dry Eye Syndrome

Post-LASIK / Post-cataract surgery dryness

Dryness due to aging, hormonal changes, or medications

Relief from burning, grittiness, irritation & blurred vision caused by dry eye

Patients exposed to prolonged screen time, air conditioning & pollution

Clinical Advantages

★ Key Benefits of Tearbless-Ultra:

Ultra-hydrating formulation

Provides severe dry eye relief

Longer retention

Extended protection on ocular surface

Reduces oxidative stress

Prevents cellular damage

Restores tear film balance

Improves ocular comfort

Safe for long-term use

Can be used frequently
