

ULTILON EYE DROPS

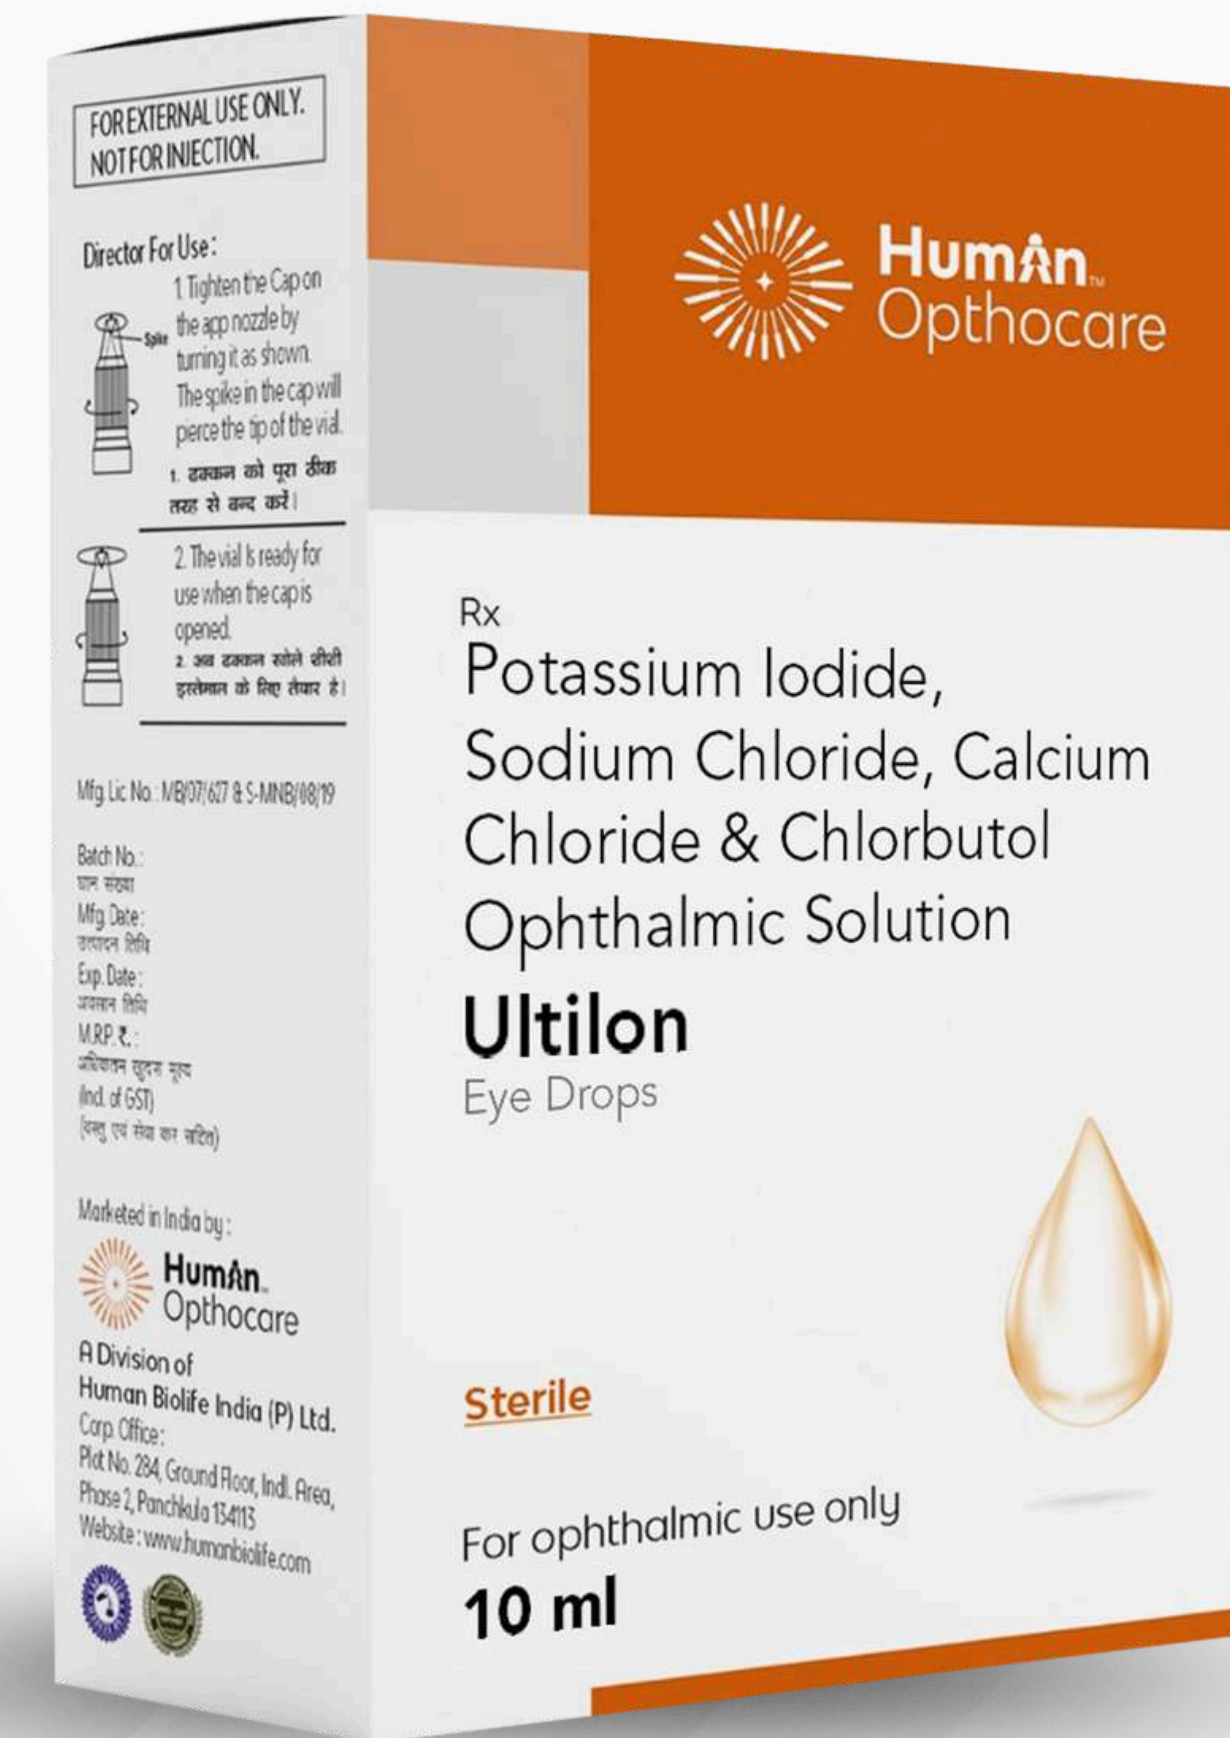

Potassium Iodide+Sodium Chloride +Calcium Chloride+Chlorbutol Ophthalmic Solution

"Clarity & Protection for Healthy Eyes"

Marketed by: Human Opthocare

A Division of Human Biolife India Pvt. Ltd.

www.humanopthocare.com

Product Overview

Unique Formulation

Unique ophthalmic formulation combining **antioxidant + protective + lubricating** agents

Potassium Iodide

Reduces lens opacification, antioxidant effect

Sodium Chloride

Maintains osmotic balance & hydration

Calcium Chloride

Supports corneal & lens metabolism

Chlorbutol

Preservative, ensures sterility & stability

Why This Combination?

Multi-targeted Approach for Eye Health

Potassium Iodide

 Reduces oxidative stress, delays cataract progression

Sodium Chloride

 Maintains corneal hydration & clarity

Calcium Chloride

 Vital mineral for lens & corneal health

Chlorbutol

 Ensures safety & stability of the formulation

 Combined action → supports lens clarity & ocular surface protection

Indications

Ultilon is recommended for:

- Early-stage cataract management
- Senile & diabetic cataracts (adjunct therapy)
- Ocular oxidative stress-related conditions
- Patients with lens opacities needing supportive therapy

Clinical Advantages

☀ Key Benefits of Utilon:

Delays Cataract Progression

Helps delay progression of cataracts

Maintains Transparency

Maintains transparency of ocular media

Antioxidant Protection

Provides antioxidant protection to lens proteins

Supports Metabolism

Supports corneal & ocular metabolism

Safe Formulation

Safe, well-tolerated, and preservative-protected formulation

Comparison with Conventional Therapy

Parameter	Utilon (KI+NaCl+CaCl ₂)	Standard Lubricants	Antioxidants Alone
Cataract Management	✔ Delays progression	✘ None	⚠ Partial
Antioxidant Action	✔ Strong	✘ None	✔ Present
Corneal Protection	✔ Yes	✔ Yes	✘ No
Multi-Mineral Support	✔ Yes	✘ No	✘ No
Compliance	✔ Single Bottle	⚠ Multiple Drops	⚠ Multiple Drops

Dosage & Administration

Dosage:

1–2 drops into the affected eye(s) **2–3 times daily**, or as directed by physician.

Long-term Use

 Safe for long-term supportive therapy.

Contact Lenses

 Remove contact lenses prior to use; reinsert after 15 minutes.

Application

 For topical ophthalmic use only.

Safety & Tolerability

Generally Well-Tolerated

Possible side effects:

- Mild irritation, stinging or redness (rare)
- Hypersensitivity reactions (very rare)

Contraindicated in:

- Known hypersensitivity to iodine or formulation components
- Advanced, mature cataracts where surgery is indicated

Why Prescribe Ultilon?

 Doctor's Choice For:

Supportive Therapy

- ✓ Supportive therapy in early cataracts

Lens Protection

- ✓ Antioxidant + mineral protection for lens clarity

Safe Adjunct

- ✓ Safe adjunct in senile & diabetic cataracts

Trusted Care

- ✓ Trusted preventive eye care from HumAn Opthocare
